(application filed on or after May 29, 2000)

The patent term adjustment to date is 0 days. If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be 0 days.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term adjustment is the filing date of the most recent CPA.

Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

1. Acknowledgement is made of the Proposed drawings filed March 11, 2003, and the Amendment filed March 13, 2003.

Allowable Subject Matter

2. Claims 1-40 are allowed.

3. The following is an examiner's statement of reasons for allowance: The best prior art of record, taken alone or in combination, fails to specifically teach or fairly suggest the method of training a data reader operator or method of scanning, which are disclosed in the claims. The prior art taken of record fails to teach each of the specific and detailed limitations which are set forth in the claims such as the operator passing an item through a read volume of a data reader, obtaining symbol data and item identification data, monitoring reading technique to obtain read technique data, sending the item identification data and the read technique data to an evaluation system, obtaining optimum read technique data, comparing the read technique data to the optimum read technique data to determine an effectiveness of the reading technique, and lastly, providing feedback indicating the effectiveness of the reading technique. Additionally, prior art fails to teach the method of scanning which includes an operator passing an item through the scan volume of a scanner while moving the item across a weigh scale integrated with the scanner. The symbol on the item is scanned to obtain symbol data and a dynamic weight of the item is obtained when the item is moved across the weigh scale. Once the dynamic weight is determined, the optimum dynamic weight is obtained from a lookup table containing item weight data corresponding to the

symbol data. The dynamic weight of the item is compared to the optimum dynamic weight data to determine an extent of lifting performed by the operator and data regarding the extent of lifting to at least one of a training system and monitoring system is provided. Still further prior art fails to teach a feedback means in communication with a processor for providing feedback indicating the effectiveness of the scanning technique.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
